Content Covered

Day One

Using the magic of NOV8's 12 Archetypes and Hero's Journey the team explore what really matters to them as individuals, how they are perceived as others and how this plays out in team dynamics. The team shares their archetypal perspectives on the team's Story So Far and what they would like to happen next. This powerful approach quickly raises awareness of the different perspectives and diversity within the team, and provides a map for Writing the Next Chapter as a collective.

The team explores what they wish to build on from the Story so Far, and what they wish to add into the team's Next Chapter identifying potential blocks. The team is introduced to simple and powerful techniques for open and constructive dialogue focused on outcomes.

Day Two

Building on Day One, the Values Survey results provide the team with further clarity as to where they are now, and where they want to be.
